The Journey from Woman to Mother July 7-19, 2014 ~ Espanola, New Mexico, USA

*A Specialty Training for Kundalini Yoga teachers and interested women
Inspire future mothers with hope, healing and uplifting spiritual values
Based on the Teachings of Yogi Bhajan*

Conscious Pregnancy Specialty Training prepares a KRI Certified Kundalini Yoga Instructor to teach Conscious Pregnancy and Post-partum yoga classes, with emphasis on serving women and building community. This comprehensive course is also an incredible preparation for women who are planning to become mothers, or women interested to educate girls or women. The training is also open to women who are not Instructors of Kundalini Yoga.

Using the wisdom and practical knowledge of Kundalini Yoga, as taught by Yogi Bhajan, participants experience personal transformation and awakening about their identity as a woman and their journey as a mother.

Curriculum

The curriculum is based on the teachings of Yogi Bhajan, who began to teach the revered and ancient teaching of Kundalini Yoga and Humanology in the West in 1969. He emphasized that everyone is spiritual; however, most people do NOT know how to be HUMAN! He did not want to collect disciples and never initiated anyone. He instead trained students to be teachers who could inspire others to live as conscious humans.

The training begins with the yogic view of the identity of a woman, including her very unique aspects, potentials and her challenges. We also will practice yoga and meditations which are specifically to support her wisdom, grace and invincibility. We also study the nature and psychological base of the male. From these two polarities we can start to investigate how intimate relationships can be developed using conscious communication and a secure self-identity.

A woman experiences pregnancy through a multitude of deep inner soul transformations, as well as experiencing her physical body becoming the vessel to contain and nurse her child. This is NOT a small experience!

We will discover how the wide spectrum of yogic technology can support her as she experiences the changes of pregnancy, prepares for birthing her child, and learns how to nurture her child outside of the womb.

Espanola weather and climate

In July, it is dry and hot (90-100 degrees F) with occasional short rain storms.

Arrange to arrive in New Mexico a few days prior to the Training so that your body can adjust to the climate and the high altitude (about 7,000 feet above sea level). Increasing your water intake and limiting any strenuous activity will assist your acclimatization.

What does the word Ashram mean?

Ashram means the house of the teacher. For over 30 years Yogi Bhajan inspired many of his students to establish ashrams around the globe. However he spent the last years of his life here in New Mexico and revered Hacienda Guru Ram Das, as “The Mother Ashram.” He said, “God is everywhere, however His home is in New Mexico”. Yogi Bhajan loved the ancient land here, the wide blue skies and the fresh clean air. The Ashram facility is the center of many community activities throughout the week.

Is there an emergency phone number where I can be reached during the training?

During course & evenings: At Program Director’s home: 505.747.7411
